Hearing's Cherry Cordial Sports, with which the Jubiles Sports ought Dr. Siegert's Angostura not therefore to interfere. At Hongkong, on Saturday, the 10th of January, 1891, by the Rev. G. H. Bond.

THE case of Saunders v. Shapherd, which was to have oume on for further hearing today before Sir James Russell, Chief Justice, has been adjourned till Thursday next to give the parties an opportunity for arriving at a settlement. The application for adjournment was made by Mr Robinson, Counsel for the plaintiff, who said it was expected that the parties would be able to adjust this suit and sundry other matters by one compromise. His Lordship in con-Mr A. K. Travers, Hun. Secretary of the senting remarked that he had suggested the same course before, as he thought it was gapore Club, Mr C. ARE BIRTHS DIMINISHING IN THE UNITED STATES !- The fact that the total population of the United States has fallen below the popular estimate of 64,0.0,0 0 is likely to. call attention to the fecundity of American women. Not long ago a sensational newspaper took a cenaus of the children in certain fashion able quarters of this city, and brought to light the fact that comparatively few children gladdened the spacious homes of Murray Hill, and that the birth-rate here was slarmingly low. The last State consus of Ma sachusetts brings out someinteresting facts in relation to the percentage of married women having no children, which may set some of the hasty critics of the consus thinking. We find that one-lifth of the native married women of Massachusetts are childless. It is said that in no country save France can a similar condition of affairs be found. On the other hand, instead of over 20 per cout, only 13.27 per cent. of the foreign-born marri d women of Massachusetts are childless. What is true of this State is undoubtedly, in a greater or less degree, true throughout the country. The time has come when we must face the fact that the increase of population by birth is decreasing—that the tendency of the limes among will-to-do Americans is to small families, and that one-lifth of our native married women are childless .- New Yurk Press.

## BALDWIN'S PARACHUTE PERFORM.

There was a large assemblage at the Race. course this afternoon to witness the parachate performance by the Baldwin Brothers, but unfortunately for the performers the great majority of the spectators chose to enjoy a gratia show outside the enclosure. There was no tower dive on the accasion, the balloon ascent and parachute descent constituting the whole programme. The exhibition however lasted a good deal longer than was intended. owing to the first balloon coming to grief. The upper portion of the balloon was of new cloth, and it showed its quality by splitting when put to the test. This accident fortunately occurred 'ofore it had carried the balloonist more than a few feet from the ground and consequently nothing worse happened to the performer than the few scratches and knocks incidental to his dropping in a clump of bamboo trees. The elder Baldwin was quite equal to the emergency and asked the spectators to wait for a few | That the General Commanding will doubtminutes as there was another balloon handy, which would be inflated as soon as possible, and the younger Baldwin had no adoner got his feet on the ground than he set to work making preparations for the inflation of balloon Number Two, responding to his brother's. 'How do you feel, Willie' with a cheerful 'All right. Part of the necessary preliminaries to getting the second balloon ready was the rassing of a rope through pulleys fixed at the end of a couple of tall poles, and the question 'Anybody here who can climb a pole?' was answered by several volunteers eager to distinguish themselves. These were mostly of the class of men who go down to the sea in ships, and they all seemed to think themselves capable of going up to the top of a pole in their stockings. Their attempts, however, were not so successful as they seemed to exject, but they afforded the audience a good deal of amusement. At length one pole was topped by a gallant tar and the other by a Chinaman, and in a few minutes later the second balloon was inflated. On being let go it shot up rapidly and took a westerly direction, carrying the balloonist quickly away from the Racecourse. The height attained was not so great as on the occasion of the previous exhibition, as the balloon was being carried rapidly towards the west. The parachute spread itself beautifully and the descent was very pretty. It was impossible to see where the parachutist alighted, and as it was getting dark the epectators did not wait for his return to the Race-course.

'FRAGRANT WATERS' MURMUR That Hongkong is veritably a place for the

THE NAMO : PIRACY CASE. BUGGESTIONS AS TO PREVENTIVE MEASURES. Mr Wodehouse resumed his inquiry into this case at the Megiatracy to-day.

Gilbert Bruce Eldridge, chief officer of the Namoa, recalled-The examination shed I referred to the other day as desirable is one similar to that which is now, on the Canton steamer wharf. In his excellent papers on The Pan-Ameri-His Excellency the Governor has been can Conference,' to which we have already

It may seem to us almost incredible that as himself is the leader of the party so far as he has influence on the composition of the committees. You how true this statement sor James Bryce, author of 'The American Commonwealth, was asked by the editor of the North American (more suo) to give his

Floral decorations will be arranged by Mr of the Speaker's functions. How different Professor Bryce assures us that in Parliament the Speaker and the chairman of Committees are, and have always been. non-partisan officials. Whatever he may have been before, the Speaker is deemed once he has assumed the wig and gown of office, to have so distinctly renounced and divested himself of all party trappings that. if he is willing to go on sorving in a new Parliament in which the party to which he belongs is in a minority, the majurity is, neverthless, expected to elect him now. Thus Speaker Brand, although he had once been whip of the Liberal party, was re-elected Speaker in 1874. by the Tory party, which had then gained a majority, and served on till 1883. The Speaker is not permitted, so long as he holds office, to deliver any party speech outside Parliament, or even express his opinion on any party question, and in the chair itself he must be scrupplously fair to both parties, equally accessible to all members, bound to give his advice on points of order without distinction between those who ask it. It is to this impartiality, which has never been wanting to any Speaker within living memory, that the Speakership owes a great part of the authority and the respect it inspires. And what Professor Bryce says of the English Speakership is equally applicable to the position of the Sreaker in Canada. These

WE CAN ONLY SAY THAT HIS INITIALS ARE "J. D." When a woman travels ten miles merely to ask a few questions we may assume that her curiosity is excited.

In the year 1838, a story went forth from Leverstook Green, Homel Hampstead. Hefts, which aroused great interest in all the region thereabout. People came from various directions to enquire into the matter; what was alleged to have occurred had to do mostly with one man. If the story turned out to be true some good was likely to come of it; if false, it would only put the community more on their guard against all sorts of wild rumours Among the women who were bound to get at the. foundation of it was one from St. Albans and a cook from Langley.

How strangely things work out in this queer world. Soven years have passed and the facts are new to become generally public for the first time. It appears that about the first of January, 1888, an old resident of the place above named was said, and commonly believed, to be in a Scale of dying condition.

For five months an able and clever physician had been attending him constantly, no medical man could have done more. His ailment was decided to be gout and rhenmatism, which are now held to be practically the same malady differently located.

Well, this began back in July, 1882. As time ran along the patient grow worse, The dector's ability and experience didn't seem to count. The sufferer's ankles, feet, and bands, became badly swollen. Price. - - 50 Cents. THE CHINESE MAIL

(Wah Tsz Yat Po.) THIS paper is now issued every day.

The subscription is fixed at Five Dollars per annum delivered in Hongkong, or Eleven Dollars Forty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guarantors and securities necessary to

place it on a business and legal footing. The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, consider themselves justified in guaranteeing a large, and ever-increasing circulation. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description conducted by native, efforts, progressive and anti-obstructive in toneis almost limitless. It on the one hand commands Chinese belief and interest, while on the other it deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials, with Local, Shipping, and Commercial News and Advertisements. Subscription orders for the above may be

## DR. J. COLLIS BROWNE'S CHLORODYNE

(Ex Army Med. Staff) IS THE ORIGINAL AND ONLY GENUINE. CAUTION. -- Vice-Chancellor Sir. W. P. Wood stated that Dr. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman being the inventor was deliberately, untrue, which he regretted had been sworn to. Eminent Hospital Physicians of London stand that Dr. J. Collis Browne was the discoverer of Chicrodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—See Times, July 12, 1864.

The public, therefore, are cautioned against using any other than DR. J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION. This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secresions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHIORODYNE is admitted by the profession to be the most wonderful and valuable CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma. CHLORODYNE effectually checks and arrests those too often fatal diseases-

Diphtheria, Fever, Croup, Ague. CHIORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.

CHIORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation CHIORODYNE is the only palliative in Neuralgia, Rhoumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 1880. To J. T. Davenport, Esq., 83, Great Russell Street, Bloomsbury, London.-Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation, this justly-esteemed medicine, Dr. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhosa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy. and as a general sedative, that have occurred under our personal observation during many years. In Choleraio Diarrhosa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a deliberate breach of faith on the part of the chemist to prescriber and patient slike. We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.'

Extract from the General Board of Health, London, as to its efficacy in Cholera -So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.'-CAUTION. - None genuine without the words 'Dr. J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

\_ OPINIONS OF THE PRESS. Ail our learned societies should so

cribe to this scholarly and enterprising 10 view. - Northern Christian Advocats (U.S.) "The China Review \* . \* \* has an excellent table of contents,'-Celestial Lingir. The Publication always contains subjects of interest to so journers in the Far East and the present issue will hold favourable if not advantageous comparison, with proceding numbers - Celestial Empire.

'This number contains several articles of interest and value - North-China Heral !. "The Chine Review for Septomber-Octobfully maintains the high standard of excellence which characterises that publiation, and altogether forms a verluteresting and readable number. teorologists will find an interesting "need enhable contribution by Dr. Fritsche on "the Amount of Precipitation (Rein and Snow) of Peking," showing the comits of observations made at the Imperial Russian Observatory at Poking, from 1841 to 1860. "Notes on the Dutch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and are as usual very interesting. - North-China

A substantial and reliable Recier which all students of China and the Chinese would do well to patronise. - Chrysanthemum.

The November-December number of the China Review contains less variety than asual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament-in Chinone" treate of a question that must necessarily be of great importance in the eyes of all missionaries. . . Mr E. II Parker's "Short Journeys in Szechuch" are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Km-

peror Chang, founder of the Chinese Empiro," which will be read with genuing interest by students of Chinese history. A few short notices of New Books and number of Notes and Queries, one of which "On Chinese Oaths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number. - H.K. Daily Press. Trubner's Oriental Record contains the following notice of the China Keview:-The present publication, judging by the

tention that has been bestowed of late years upon the investigation of Chinese literature. antiquities, and social developments, to env nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of pubable; and contributions of much interest of the foreign consular services, the Chinese among whom a high degree of Chinene scholarship is now assiduously cultivated, and who are severally represented in the first creditable to their respective authors . Some translations from Chinese novels and the Chinese poet-statesman of the eleventh | fic, Northern Pacific or Canadian Pacific century, Su Tung-p'o, by Mr. E. O. Bowra, Railways. is not only historically valuable, but is also listinguished by its literary grace. Beside and detail, we are glad to notice that "Notes and Queries are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar dogree of literary zeal to that which was displayed during the lifetime of its prodecassor in the field, and that the China Review may receive the support necessary to insure l'a continuance.

Our Jobbing Department LIAVING just been REPLENISHED with a large assortment of the latest EUROPEAN and AMERICAN NOVELTIES. we are prepared to execute orders for FANOY WORK with nestness and despatch,

and at very moderate rates. -OHINA MAIL OFFICE.
